Re: KNYN (FM), Fort Bridger, Wyoming
Facility Identification Number: 87470
M. Kent Frandsen
Special Temporary Authorization
BESTA-20170612AAX

Dear Mr. Frandsen:

This is in reference to the request filed June 12, 2017, on behalf of M. Kent Frandsen ("MKF"). MKF requests an extension of the STA granted on June 3, 2014 (BSTA-20131216DSP), that modified the STA granted on December 7, 2005 and its several extensions.

Frandsen has been on notice for years that KNYN would eventually need to move to Channel 280 to accommodate another station in Nephi, UT that was moving to Channel 256. KMGR (formerly KUDE), Nephi, UT commenced operation on Channel 256A in August of 2016, and now has a construction permit application for Class C1 operation on Channel 256 (BPH-20161121AAE). Under these circumstances, we are no longer willing to entertain KNYN's continued operation on Channel 256 for an indefinite period. We here afford KNYN one final STA extension for operation on Channel 256. Operations on Channel 256 must cease on or before the expiration date of this STA extension.¹

Subject to these considerations, the STA extension IS HEREBY GRANTED. Until December 11, 2017, station KNYN may continue to operate with the following facilities:

Geographic coordinates:	41° 21' 10"N, 110° 54' 26" W (NAD 1927)
Channel	256 (99.1 MHz)
Effective radiated power:	0.625 kilowatt (H&V)
Antenna height:	
above ground:	5 meters
above mean sea level:	2629 meters
above average terrain:	456 meters

¹ If Frandsen has not implemented KNYN's construction permit BPH-20160901ABF for operation on Channel 280C1 (103.9 MHz) by the expiration date of this STA extension, Frandsen may request a new STA for temporary facilities on Channel 280. Or Frandsen may request an STA to remain silent if operation on Channel 280 cannot be arranged.

MKF must continue to use whatever means are necessary to protect workers and the public from radiofrequency exposure in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **December 11, 2017**. Operation of KNYN on Channel 256 (99.1 MHz) must cease on or before this date.

Sincerely,

A handwritten signature in dark ink, appearing to read "Dale Bickel", written in a cursive style.
